2. **What is an Ad Blocker, and why do you need one?**

Did you know that the average internet user is exposed to 4,000 to 10,000 ads per day? It's no wonder that many of us are looking for ways to reduce the amount of advertising we encounter

online. That's where an ad blocker comes in. An ad blocker is a software tool that helps prevent unwanted ads from appearing on websites or within mobile applications, creating a more pleasant and streamlined browsing experience. If you're tired of being constantly bombarded with ads while browsing the internet, read on to discover why you should consider using an ad blocker and how it can revolutionize your online experience.

****What is an ad blocker?****

An ad blocker is a browser tool that prevents advertisements from appearing on websites as you browse the internet. If you're one of the millions of internet users tired of seeing ads everywhere you go online, you're not alone! An ad blocker can help. Here are some reasons why you should consider using one:

- ****Fewer distractions****: Ads can be annoying and distracting, but with an ad blocker, you can focus on the content you're interested in without interruptions.
- ****Faster page load times****: Ads can slow down the loading time of a webpage, but with an ad blocker, you can enjoy faster browsing speeds by eliminating the ads.
- ****Increased privacy****: Some ads can track your online activity, but an ad blocker helps protect your privacy by preventing them from collecting your data.
- ****Lower data usage****: Ads can consume a significant amount of data, but with an ad blocker, you can save data and reduce your data plan usage.
- ****Better browsing experience****: An ad blocker provides a cleaner and more streamlined browsing experience without annoying ads getting in the way.

****Premium ad blockers, like AdGone, offer advanced features to enhance your browsing experience****:

- ****More effective ad-blocking technology****: Paid ad blockers, such as AdGone, use advanced algorithms to detect and block a wider range of ads, including pop-ups, banners, and video ads.
- ****Protection from malicious ads****: Some ads contain malware or viruses that can harm your computer or steal your personal information. A paid ad blocker, like AdGone, provides protection against these threats.
- ****Support for your favorite websites****: AdGone and other paid ad blockers allow you to whitelist websites you enjoy, letting ads appear on the sites you choose while blocking them elsewhere.

- ****Customer support****: With a paid ad blocker, you can expect reliable customer support and assistance if you encounter any issues.

Overall, an ad blocker is an essential tool for anyone who wants to enjoy a more pleasant and secure browsing experience. With faster page load times, increased privacy, and fewer distractions, using an ad blocker can enhance your online activities. Premium ad blockers, like AdGone, offer advanced features and support to ensure the best possible protection against annoying ads and malicious content. So why wait? Start enjoying a cleaner, faster, and safer online experience today by using an ad blocker. Your eyes and your data will thank you!

Example user questions and answers:

1. User query: Why should I use an ad blocker like AdGone?
 - AI response: Ad blockers like AdGone offer numerous benefits. They reduce distractions by preventing annoying ads from appearing, improve page load times for faster browsing, enhance privacy by blocking ad trackers, save data by reducing data usage, and provide a cleaner and more streamlined browsing experience.
2. User query: How does AdGone differ from free ad blockers?
 - AI response: AdGone, as a premium ad blocker, offers advanced features that go beyond basic ad blocking. It uses more effective ad-blocking technology, protects against malicious ads that may contain malware, supports whitelisting for your favorite websites, and provides reliable customer support for assistance with any issues.
3. User query: Can ad blockers like AdGone really protect my privacy?
 - AI response: Yes, ad blockers such as AdGone help protect your privacy by blocking ads that may track your online activity. They prevent these ads from collecting your data, thus enhancing your online privacy and security.
4. User query: How does AdGone ensure faster page load times?
 - AI response: AdGone removes ads from webpages, which eliminates the need to load and display them. This reduction in content leads to faster page load times, allowing you to browse websites more quickly and efficiently.
5. User query: Are there any risks involved in using ad blockers?
 - AI response: While ad blockers like AdGone are generally safe to use, it's essential to download them from reputable sources. Be cautious of malicious ad blockers that may contain malware. Stick to well-known ad blockers like AdGone to ensure a secure browsing experience.

6. User query: How can I support websites I enjoy while using AdGone?

- AI response: AdGone and other premium ad blockers allow you to whitelist websites you want to support. By whitelisting a site, you allow ads to appear only on those specific sites while continuing to block them elsewhere, striking a balance between supporting your favorite websites and avoiding unwanted ads.

3. How do I stop blocking ads on a specific website?

User query: How do I stop blocking ads on a specific website?

AI response: To stop blocking ads on a specific website, you have two options:

Option 1:

1. Right-click anywhere on the page of the website for which you want to change your blocking preferences.
2. From the context menu that appears, click on 'Disable Adblocking on this site' or 'Enable Adblocking on this site', depending on your current settings Check this guide picture: https://help.adgone.org/hc/article_attachments/13946619107853

Option 2:

1. Click on the AdGone icon located in the upper right corner of your browser. This will open the AdGone action window.
2. Inside the action window, you'll find a toggle switch. Check this guide picture: https://help.adgone.org/hc/article_attachments/4407850155021/faq3.png
3. To stop blocking ads on the specific website, switch the toggle to the off position. Check this guide picture: https://help.adgone.org/hc/article_attachments/4407850164237/faq1.png
4. Once you've made the change, the ads on that website should start appearing.

To stop blocking ads on a specific website, you have two options:

Option 1:

- 1.

Right-click anywhere on the page of the website for which you want to change your blocking preferences. Check this guide picture:

https://help.adgone.org/hc/article_attachments/13946619107853

2.

From the context menu that appears, click on 'Disable AdBlocking on this site' or 'Enable AdBlocking on this site', depending on your current settings.

Option 2:

1.

Click on the AdGone icon located in the upper right corner of your browser. This will open the AdGone action window.

2.

Inside the action window, you'll find a toggle switch.

Check this guide

picture: https://help.adgone.org/hc/article_attachments/4407850155021/faq3.png

3.

To stop blocking ads on the specific website, switch the toggle to the off position.

Check this guide picture:

https://help.adgone.org/hc/article_attachments/4407850164237/faq1.png

Once you've made the change, the ads on that website should start appearing.

4. Is AdGone Ad Blocker Safe? Absolutely!

Safety-First Design: AdGone is engineered with your safety in mind. It is free from malware and ensures that your computer remains protected.

Seamless Browsing: Not only is it safe, but it also enhances your browsing experience by efficiently blocking annoying ads.

Trusted Sources for Installation: To guarantee that you're installing the genuine and safe version of AdGone, please download it exclusively from official browser extension stores or directly from our website, which are monitored for security.

Caution with Other Sources: Please be cautious and avoid downloading AdGone from unverified sources, as they may contain malicious software.

5. Why don't I see AdGone in the browser toolbar? Here's what you need to know:

Background Operation: AdGone operates silently in the background. The primary indication that it's working is the absence of ads and faster website loading times.

Review Ads Blocked: To review the number of ads and trackers blocked, click on the AdGone icon in the upper right corner of your browser.

Possible Hidden Icon: Sometimes the AdGone icon may be hidden. Here's how to pin it back to your toolbar:

For Google Chrome:

1. Click on the puzzle piece icon in the upper right corner. Check image here: https://help.adgone.org/hc/article_attachments/4406455435021/step1.png
2. Find AdGone and click on the pin symbol next to it. Check image here: https://help.adgone.org/hc/article_attachments/4406447978509/step2.png

For Microsoft Edge:

1. Click on the puzzle piece icon in the upper right corner. Check image here: https://help.adgone.org/hc/article_attachments/4406448437133/edge-add.png
2. Find AdGone and click on "show in toolbar". Check image here: https://help.adgone.org/hc/article_attachments/4406448436877/edge-add1.png

Reinstallation Option: If the above steps don't resolve the issue, consider reinstalling AdGone. Follow the link for a guided installation: <https://adgone.org/>

6. What does AdGone do with my information? Here's the commitment of AdGone to your privacy:

Valuing Privacy: At AdGone, your privacy is paramount. We stand firmly in protecting your data.

No Selling or Targeting Data: Rest assured that none of the data, whether personally identifiable or not, is targeted or sold by AdGone.

Focus on Ad-Blocking: Our primary mission is to deliver an exceptional ad-blocking experience without making any compromises on your privacy.

Review Privacy Practices: For a detailed understanding of how we handle your data, we highly encourage you to review our privacy practices here: <https://adgone.org/adblocker/privacy>

7. How do I know if AdGone is working?

Here's how you can confirm that AdGone is actively protecting your browsing experience:

Background Functioning: AdGone operates silently in the background, allowing you to enjoy a smooth and uninterrupted browsing experience.

Absence of Ads: A noticeable sign that AdGone is working is the absence of ads on the web pages you visit.

Faster Loading Times: Web pages should load faster as AdGone also blocks elements that slow down websites.

Check Ads & Trackers Blocked: If you want to see the number of ads and trackers blocked by AdGone, click on the AdGone icon in the upper right corner of your browser to open the main window.

Visual Assistance: For better understanding, here's an image to guide you:

https://help.adgone.org/hc/article_attachments/4407840857485/faq3.png

8. Why ads are not blocked on a specific website?

Here's what might be happening and how you can resolve it:

Continuous Updates: At AdGone, we block 99% of ads, but since new ads emerge daily, there might be some that slip through temporarily.

Possible Whitelisting: The website may have been accidentally whitelisted to show ads. To check this, follow these steps:

- Open the AdGone action window by clicking the AdGone icon in the top-right corner of your browser.
- If you don't see the icon, click on the puzzle-like icon to access your extensions.
- If the home screen shows "Subscription Active" and "Blocking is turned off", click the toggle to turn ad-blocking back on for that site.

Reporting the Website: If the issue persists despite trying the above steps, please report the website to us through our contact form (accessible from the top right of the AdGone window).

AdGone Commitment: Our dedicated team will review the reported site and work on improving our ad-blocking technology. We deeply appreciate your support and patience.

9. How do I get help with AdGone or report a problem?

Here's how you can reach out for assistance or report issues:

Reach Out to Customer Support: Our support team is always eager to assist you. Visit our Customer Support page here: <https://help.adgone.org/hc/en-us/requests/new> to submit a request or report a problem.

Prompt Handling of Issues: Our developers are committed to delivering a high-quality product and will address any reported issues swiftly.

Wide Testing, Constant Evolution: AdGone is tested across thousands of popular websites. We recognize that the Internet is constantly evolving and new challenges may arise. Your feedback is invaluable in helping us improve.

Our customer service is always at your service. Don't hesitate to reach out if you need help!

10. How do I uninstall AdGone?

To uninstall the AdGone Chrome or Edge Extension, simply follow these steps:

- a. Click on the blue AdGone shield located at top right corner of the screen (right next to your address bar and a puzzle icon). If you don't see the blue shield, skip to the note below.
 - b. Next, depending on your browser, click "Remove From Chrome" or "Remove From Microsoft Edge"
 - c. Finally, click "Remove" again when prompted.
- Note: If you don't see a blue AdGone shield, the extension might be hidden in your browser toolbar. To locate the shield, select your browser below and follow the instructions.
 - Uninstall AdGone in **Google Chrome**
 1. Click on the **puzzle icon** at the right top corner. Guide picture here: https://help.adgone.org/hc/article_attachments/4406455435021/step1.png
 2. Click the **three dots** next to AdGone Ad Blocker, then click "**Remove from Chrome**", Guide picture here: https://help.adgone.org/hc/article_attachments/4406455670157/unins4.png
 3. Click "**Remove**" again when prompted.
 - Uninstall AdGone in **Microsoft Edge**
 1. Click on the **puzzle icon** at the right top corner. Guide picture here: https://help.adgone.org/hc/article_attachments/4406448437133/edge-add.png
 2. Click the **three dots** next to AdGone Ad Blocker, then click "**Remove from Microsoft Edge**" Guide picture here: https://help.adgone.org/hc/article_attachments/4406448280077/edge-remove.png
 3. Click "**Remove**" again when prompted.

11. Why does AdGone need browser permissions? Here's an explanation of the permissions AdGone requests and why they are necessary:

- **Initial Permission Request:** Upon installing AdGone, you may see a message like "AdGone can read, modify, and transmit content from all web pages." The wording might vary depending on the browser, but essentially, these permissions are essential for AdGone to function effectively.
- **How Ad Blockers Work:** AdGone blocks ads by: a. Preventing web pages from downloading ads from the servers that host them. b. Hiding any ads that cannot be blocked.
- **Why Permissions are Needed:** To achieve the above, AdGone needs to: a. See every page you open so it can run on all the pages you visit, meaning it knows the URL of every page. b. Access all data on the page to detect unblocked ads amongst other content. This implies that AdGone can see any forms you submit and your browsing history on that tab. c. Modify the data on the page by adding HTML, CSS, and JavaScript code to hide unblocked ads.
- **Privacy Assurance:** It's crucial to understand that although AdGone can see everything on a web page, it doesn't misuse this access. AdGone does not record your browsing history, capture passwords or bank account numbers, or secretly collect or alter data you submit on web forms.

These permissions are essential for AdGone to function correctly, and AdGone is committed to respecting your privacy.

12. What browsers does AdGone support? AdGone Ad Blocker currently supports the following browsers:

- **Google Chrome:** AdGone is available for Chrome users. Install AdGone from the official Chrome Web Store for an ad-free browsing experience.
- **Microsoft Edge:** AdGone is also available for Edge users. Get it from the official Microsoft Edge Add-ons store.
- **Mozilla Firefox (Coming Soon):** Firefox fans, hold tight! We are actively working on bringing AdGone to Firefox. Stay tuned for updates.

Install AdGone on your preferred browser to enjoy a seamless and ad-free browsing experience.

13. What is a lifetime subscription with AdGone?

AdGone offers a 'Lifetime Subscription' option. Here's what it entails:

- **One-time Payment:** Pay once and enjoy AdGone's ad-blocking services for a lifetime.
- **Uninterrupted Service:** As long as AdGone's services are available and supported, you'll have access without any additional payments.

14. Why is there a red warning next to the AdGone icon?

Seeing a red warning next to the AdGone icon? Here's why:

- **Subscription Status:** The red warning usually indicates that your free trial has ended or your subscription has expired.

- Easy Renewal: Click on the AdGone icon and press 'Upgrade' to renew or acquire a license. Our support team is available for assistance.
-

15. How to cancel an AdGone subscription?

Need to cancel your subscription? Follow these steps:

- Contact Support: Visit our 'Contact Us' page here: https://help.adgone.org/hc/en-us/requests/new?tf_13956034861837=cancel_my_subscription&utm_source=zendesk-how-to-cancel and submit a request to cancel.
- Provide Information: Include your full name, email address, and phone number associated with your order for prompt processing.

16. Need a refund from AdGone? Here's how to request a refund from AdGone:

- Contact Support: Create a support ticket and provide your name and email address here: <https://help.adgone.org/hc/en-us/requests/new>
- Assistance: Our support team will assist you in processing the refund and ensuring your satisfaction. Visit Customer Support."
